

A map of every hidden treat stop in Columbus

How the Dog Treat Trail works today, and where a local store
or dog-walker-friendly business fits in.

WHAT TREAT TRAIL IS

A crowdsourced map of dog-treat spots, walked and confirmed by neighbors

Neighbors spot treat stands, stick libraries, water bowls, and toy boxes on their daily walks — and drop a pin. Nothing goes live as trusted until someone walks it and checks it in person.

ONE SURFACE

A single interactive map — no separate app

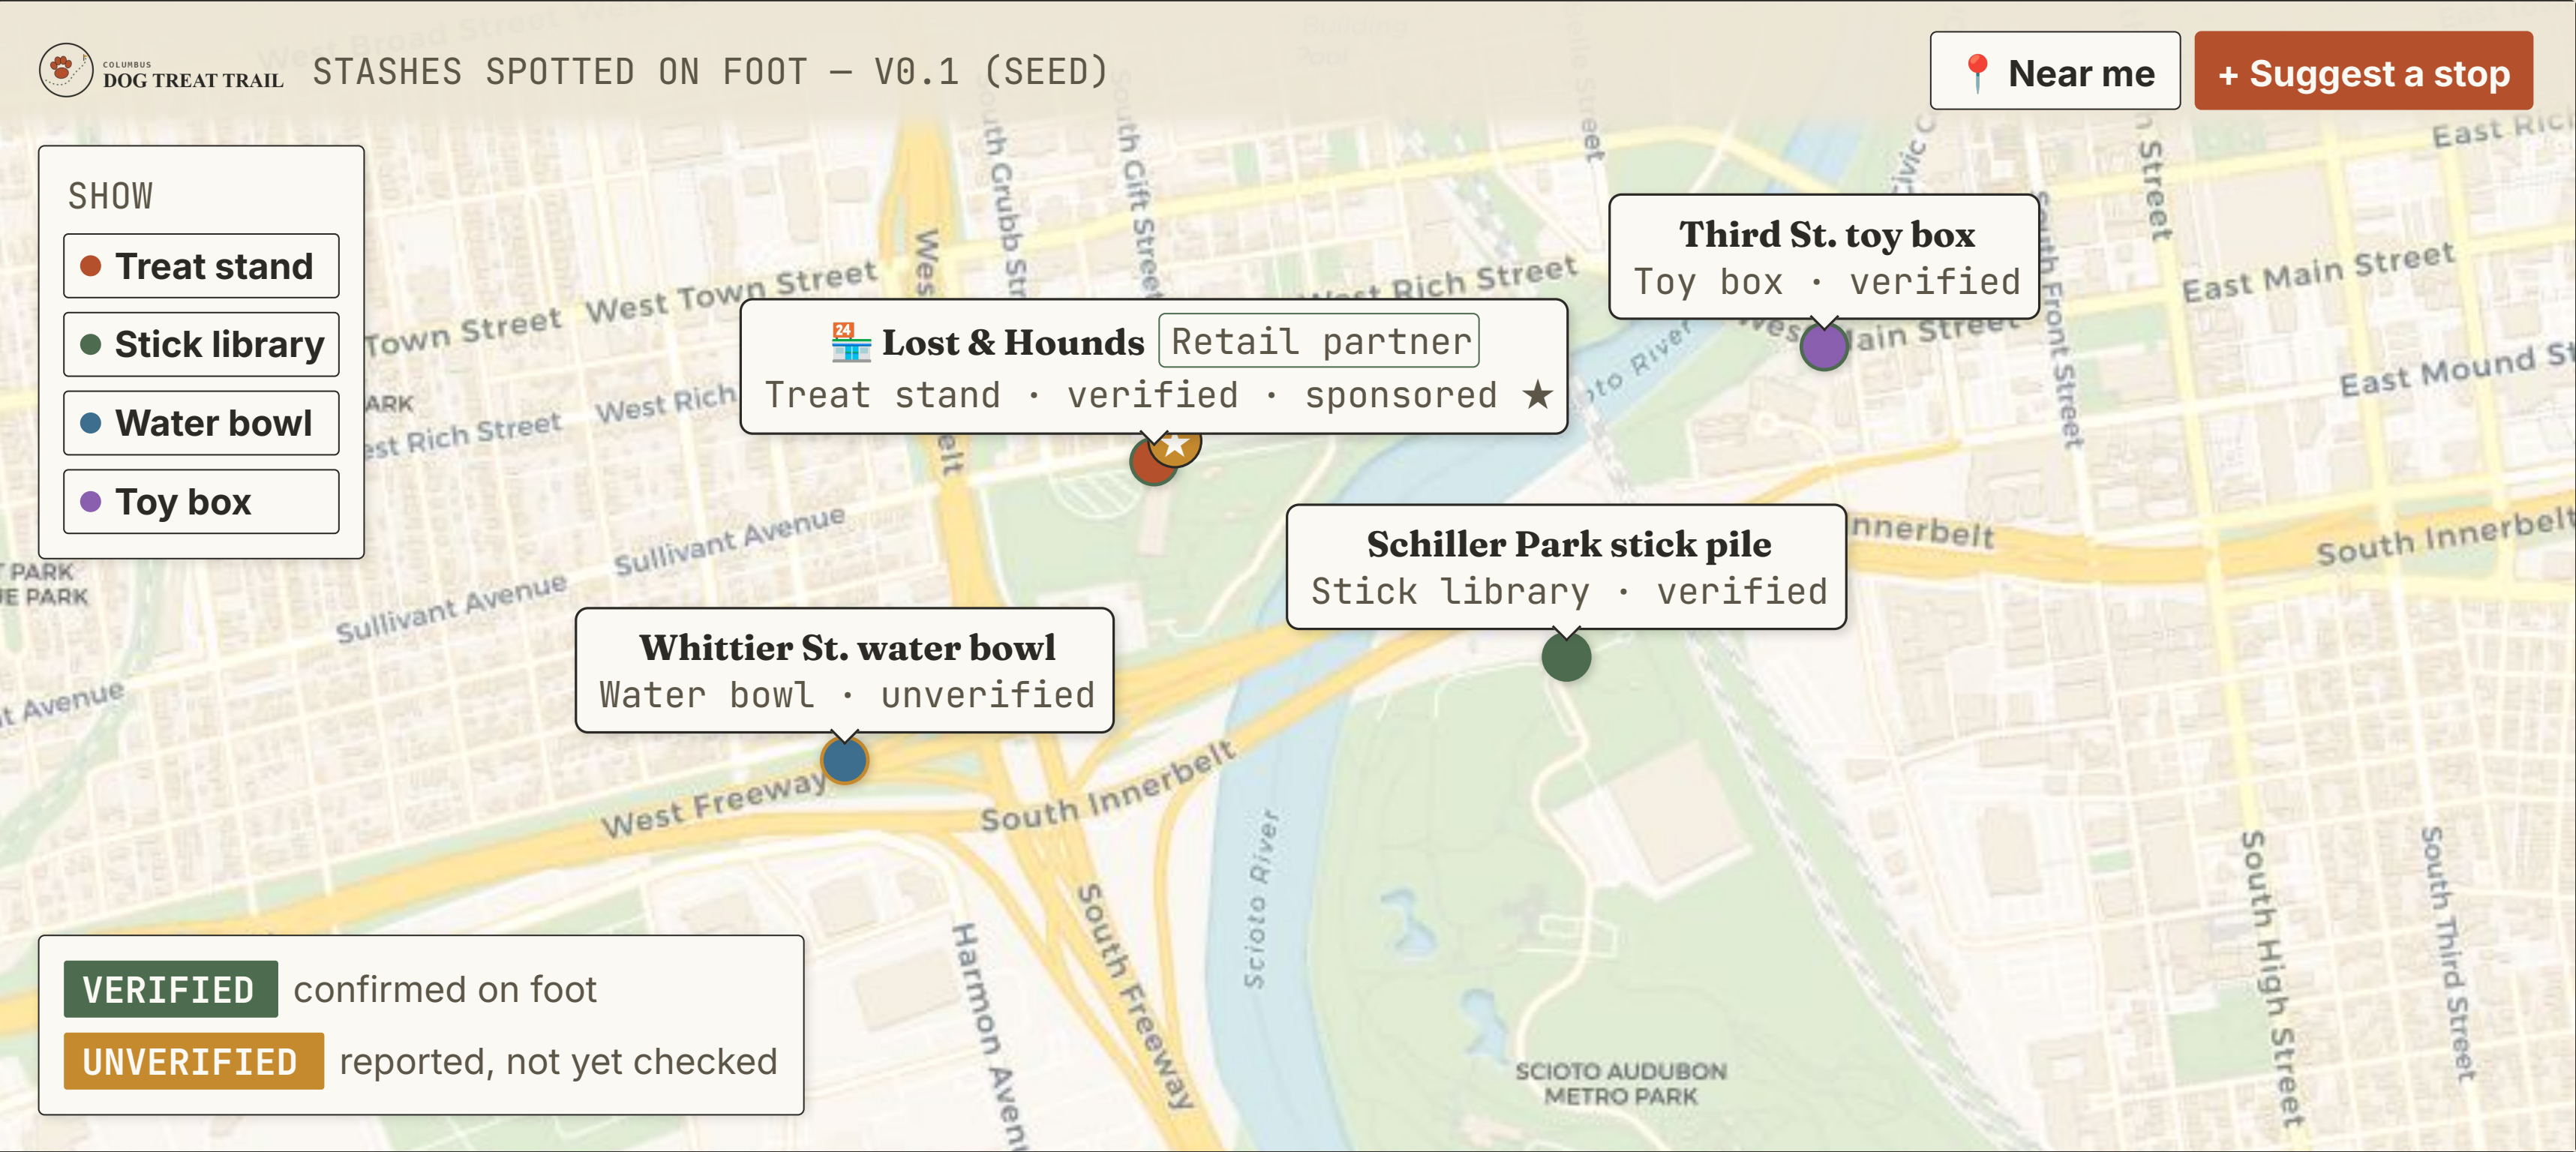

HONESTY FIRST

Verified vs. unverified — never overclaimed

BUILT BY HAND

One static page, one Google Sheet as the database

Every stop, filtered by type, colored by status

FILTERS

Five stop types, each with its own color

Treat stand

Stick library

Water bowl

Toy box

Mixed

TRUST, NOT HYPE

Every stop is verified or unverified — never assumed

VERIFIED

Someone has walked past this stop and confirmed it's really there.

UNVERIFIED

Reported by a neighbor, but not yet checked in person.

"Flipping something to verified still means walking it and hand-correcting the coordinates."

TAP A PIN

Every pin opens a card with the full story

Name, stop type, neighborhood, and status up top — then notes on what to expect, plus one-tap walking directions in Google or Apple Maps.

VERIFIED

Business

Dog-walker-friendly shop at 364 E Whittier St — self-serve dog wash, treats, toys, and food. First confirmed stop on the trail.

OPTIONAL PHOTO
Anyone submitting or verifying a stop can attach a photo — it shows right on the card when there is one.

SUGGEST A STOP

Anyone can flag a new spot — we verify it on foot before it counts

A good stop should be:

- Easy to find, with a landmark if there's no sign
- Usable most of the year (seasonal is fine, just flag it)
- Free and open any time, if it's at a business
- Family- and dog-friendly

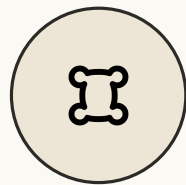

Suggest a stop

Submissions come in through a form, get captured automatically, and are reviewed by a moderator before anything goes live as unverified.

Verified on foot

Every stop starts unverified until
someone walks it and confirms it's really
there.

Where a local store or dog-walker-friendly business could fit in

-  **Sponsored pins**
A featured marker for a store that stocks and restocks a stop, marked clearly — not blended in with volunteer-run spots.
-  **Adopt-a-stop**
A business partners with the trail to keep a nearby stop stocked, in exchange for visibility on the map.

Both are roadmap ideas from the maintainer — not live features yet.

LET'S TALK

Want your business on the trail?

We'll walk your street with you, confirm the stop, and talk through what a sponsored pin or adopt-a-stop partnership could look like.
